Why You Should Join?

Durbar is one of the most incredible cultural experiences I've ever witnessed.

For over 500 years, this royal tradition has brought Kano to life with magnificent horsemen, **colorful ceremonies**, music, and **unmatched hospitality**. But beyond the spectacle, it's the people, conversations, and **connections** that make this journey truly unforgettable.

If you've ever wanted to experience a side of the world few travelers ever see, this is your chance.

Join me in Nigeria for the **Durbar Festival 2027** and become part of a tradition that has been celebrated for more than five centuries.

I had the pleasure of traveling to Egypt with Don, and I can confidently say he is an exceptional person to spend time with and work alongside. Throughout the trip, Don consistently showed kindness, patience, and genuine consideration for everyone around him. Travel can often reveal a person's true character, and Don handled every situation with positivity, calmness, and a great sense of humor. He was dependable, respectful, adventurous, and incredibly easy to get along with. Whether navigating busy cities, exploring historical sites, or dealing with unexpected travel challenges, Don remained thoughtful and supportive throughout. What stood out most was his ability to connect with people from all backgrounds and make those around him feel comfortable and valued. He brings great energy, integrity, and warmth wherever he goes. I would highly recommend Don both personally and professionally. He is truly an amazing person and someone I would gladly travel or work with again.

In just one trip we traveled to four different cities, explored the most ancient parts of history while simultaneously experiencing Egypt now. The best part were the connections i made with my group-mates and Mo & Don. Thanks for a unforgettable experience.

This was an amazing experience! The group was just the right size for me, and everyone in the group was super excited to be there! I tried new things that I usually wouldn't, and was pleasantly surprised! We were able to visit all of the key Egyptian hotspots, as well as a few off the beaten path. I thoroughly enjoyed myself on this trip! I can honestly say it was life changing! Thank you to the guides and Don for this opportunity!

Traveling to Egypt with Don and his team was honestly such an unforgettable experience. It didn't feel like a normal tour at all. It felt real. We explored Giza and Cairo, spent two days in Luxor, two days in Aswan, and visited the Nubian Village. Every place had its own vibe, and the whole trip completely changed the way I see Egypt. What I loved most was how local everything felt. We weren't just visiting places, we were actually living the experience. We rode tuk tuks, had motorbike rides through the streets, and even got haircuts at a local Egyptian barbershop. That's something I never imagined doing while traveling, and honestly, it became one of the funniest and most memorable parts of the trip. I got to experience the real culture, meet amazing people, and connect with locals in a way I've never experienced in other countries. Everyone was so welcoming, and by the end of the trip, Egypt genuinely started to feel like home. I came to Egypt without knowing anyone, and I left with a bunch of great friends and memories I'll never forget. I'll definitely come back again someday.

"I believe immersive travel is the best form of travel not just seeing a place, but feeling it, experiencing it, and becoming part of it, even if only for a moment. It sticks with you, it changes you forever"- Don
